ARYAN KATIYAR

Greater Noida, UP, India | +91 9369647360 | aryankatiyarjnv@gmail.com | GitHub | Portfolio | LinkedIn

PROFESSIONAL SUMMARY

Detail-oriented Computer Science graduate (B.Tech 2026) with hands-on SEO internship experience and a strong analytical foundation in data-driven, user-facing applications. Skilled in off-page SEO execution (link building, content promotion, indexing) and Python-based data processing and automation, with working knowledge of on-page, off-page, and technical SEO, plus GA4 and Search Console. Brings a technical edge to marketing execution — comfortable working with website structure, content data, and performance metrics — with a strong eagerness to learn and contribute from day one.

SKILLS

Digital Marketing & SEO: Off-Page SEO (link building, blog/content promotion, bookmarking), On-Page SEO, Technical SEO fundamentals, Google Search Console (indexing, sitemaps), Google Analytics (GA4) basics
Programming & Backend: Python, C/C++, JavaScript, Django, REST APIs, JWT authentication
Data & Analytics: Pandas, NumPy, SQL — data cleaning, pattern analysis, and reporting
Tools & Platforms: Git, GitHub, VS Code, Postman

PROFESSIONAL EXPERIENCE

SEO Intern — Click Catcher Jul 2026 – Sep 2026 | Onsite, Noida

- Executed off-page SEO activities including backlink building, image sharing, and sitemap/page indexing through Google Search Console.
- Wrote and promoted classified and blog posts (onsite and offsite) as part of ongoing content and link-building campaigns.
- Carried out profile creation, micro-blogging, and social bookmarking to support off-page link-building strategy.
- Gained hands-on exposure to Google Analytics (GA4) and Google Search Console, including submitting pages for indexing.

AI/ML Engineering Intern — Edunet Foundation Feb 2025 – Mar 2025 | Remote

Tech Saksham Initiative | Microsoft & AICTE

- Engineered a candidate screening and ranking engine in Python that processes profiles in bulk and reduces manual review time.
- Built data processing pipelines with Pandas and NumPy to clean, extract, and normalise unstructured text data — a workflow directly transferable to content and keyword data analysis.
- Automated recurring workflows by designing reusable Python modules, improving evaluation accuracy and reducing repetitive manual effort.
- Integrated an SQLite backend to persist and query processed data, enabling reproducible, metric-based reporting.

PROJECTS

Campus Connect — Placement Management System Python · Django · MySQL · REST API

- Full-stack placement management app with role-based access control and REST API endpoints; improved page load time through query optimisation.

AI-Powered Resume Screening and Ranking System Python · SQLite · Pandas · NLP

- Python system that scores resumes in batches against job requirements using keyword and content matching.

EDUCATION

B.Tech — Computer Science and Engineering Aug 2022 – Jun 2026

Greater Noida Institute of Technology, Greater Noida, UP | CGPA: 7.25

10+2 (PCM) — Intermediate

Jawahar Navodaya Vidyalaya, Kanpur Dehat, UP

CERTIFICATIONS & ACHIEVEMENTS

- 5-Star Gold Badge in Python — HackerRank
- SQL Fundamentals Certification — HackerRank
- Python with Django Certification — Mysirg.com
- Practised DSA problems on LeetCode and HackerRank
